

PHILIPPE PEREIRA

Electrical engineer and developer

PROFESSIONAL INTERESTS

Development of computation tools for electrical engineering, specifically in power transmission and power electronics.

PROFESSIONAL EXPERIENCE

2022- present **Software Developer – OPAL-RT Technologies, Montreal, Canada.** Development in Java and MATLAB for real-time simulation of power electronics circuits on FPGA

2013 – 2022 **Planning Engineer – Cemig distribution.** Electrical power system operative planning, power flow simulations, load shedding, measurements treatment using state estimation and statistical inference. Belo Horizonte, Brazil

2020 **College professor – UniBH.** Power electronics, power systems and electromagnetic power conversion. Belo Horizonte, Brazil.

2012 – 2013 **Application engineer – Nexans Brazil.** Technical support for commercial and production activities. São Paulo, Brazil.

2011 **Research internship – LaMSID EDF R&D.** Computational mechanics – Adaptive integration schemes for contact and friction simulations. Clamart, France.

EDUCATION

2013 – 2016 **Federal University of Minas Gerais, Belo Horizonte, Brazil**
Master Level Degree – Electromagnetic compatibility in PV generation systems

2008 – 2011 **École Polytechnique, Paris, France**
Double Degree – Énergies du XXI^e siècle

2006 – 2011 **Escola Politécnica of University of São Paulo, Brazil**
Graduated in Electrical Engineering – Energy and Automation

IT SKILLS

Java, C, C++, Fortran, Matlab, HTML/CSS/PHP/Javascript, SQL

LANGUAGES

Portuguese (native), English (fluent), French (fluent), and German (A2)

PERSONAL DETAILS

address

4398, Rue Bannantyne,
Verdun, QC H4G 1C8

phone

[+1.438.371.9927](tel:+14383719927)
